

**Officer** Yes. Your Jump Captain is packing your equipment. Better get started. Good luck.

**Decker** Anyway I estimated that on high energy levels solex could walk this disk retro to the negative templative current setting which is, as I say, should be prox year AD one nine five three.

**TQB** Stonehenge, this is tranquility Base.

**SH** Go ahead TQB.

**TQB** We will Warp Sarg Ekoms in 39 seconds, stand by.

**SH** Standing by. . . .

**TQB** Warp!

**SH** We have firing signal . . . we have firing signal.

\*\*\*\*\*

**Decker** We have some sustainers now that were born prox time AD 1953. I've touched with some of them. But they are so full of plastic that it's next to impossible to get any kind of print out from them.

\*\*\*\*\*

**SH** We lost him. We lost him! Tranquility Base, this is Stonehenge. TQB come in. We lost him!

**TQB** We are reading you Stonehenge. We have rectifiers up. If we don't find the trouble, it will mean that the future has been changed.

\*\*\*\*\*

**Announcer** Good evening. Tonight we will broadcast the first of a series of programs honoring the inventor of electronic television, Dr. Philo Taylor Farnsworth. These programs are made possible by circumstances arising from Dr. Farnsworth's many inventions. We are especially privileged to have with us tonight the famous Sarg Ekoms.

**Sarg** In that now dead future from which I came, a method by which I could penetrate the temporal screen and thereby the fourth dimension allowed me to visit you in your time. As a result of a penetration of the space time continuum, I was able to collect data concerning the past for the people in my time. But when I became familiar with the attitudes of your people, I began to change.

**Announcer** The results of Sarg's experiments and experiences are the subject of this series of programs. In a moment this episode of contact with the future will begin, but first a word from Tadlock Gravity Cars. *TADLOCK* — the first name in gravity cars introduces the *Ecology X3*, the most advanced surface vehicle in the world today. Our fusion powered, totally silent, completely clean computer slave surface cars are the finest to be found. The interiors are fitted for the utmost comfort for intercity, continental, or oceanic travel. From the garden belt to the central city, from Wenderland to Chandigar, the *Tadlock Gravity Car* is the people's choice. The *Ecology X3* has no moving parts, emits no energy conversion wastes, runs for seven years on a single fusion tube under normal conditions. *Tadlock Gravity Car* has developed a computer slave microwave which conforms to any existing surface pattern from altitudes of from 25 feet to 25,000 feet and whisks you intrametropolitan at speeds of 450 miles an hour in complete comfort. See the *Ecology X3* at the *Tadlock Gravity Car* showroom today. *TADLOCK* gravity cars.

**Voice** See the *Ecology X3* by Tadlock Gravity Car at your dealer's showroom today. Now, we go first to Lawrence Colman in Beaver City, Utah for his report on Dr. Farnsworth's birthplace.

**Announcer L. Colman** We are here in Beaver City where Dr. Philo Taylor Farnsworth is born on a windy desert morning, August 19, 1906. . . .
